

THE USER MANUAL OF MODIFIED TOLL FEE OR CP1REDPROJECT

- > Open Visual Studio Code.
- > Find "cp1RedProject".
- > Type in Terminal " .\cp1RedProject " to start to run the program.
- > Roll the first and second dice.
- > The number that appears on the first and second dice, that's what you put in the "Value of first and second dice".
- > Whatever the value that will show up on the first and second roll, that's the amount that you will pay to pass the modified toll fee.
- > If you get a roll that's equal to or greater than ten, you will have to pay a special tax of one hundred thirty-six pesos. But if you get less than ten, you will pay a regular tax.
- > Enjoy and have a safe ride!
